Revision.01 June.2026

10HP  
30mA on +12V  
30mA on -12V

## WELCOME

This is our simple Humbucker pickup module.  
It features Tone and Volume controls as well as a LOW/HIGH gain switch for saturation.

An integrated pre-amplifier brings the volume up to synth level.

The height of the pickup can be adjusted using the mounting screws.  
The pickup can also be removed and used by hand.
